

GET YOUR WOOD WET!

WETTING YOUR BOARDS

In order to get peak performance out of your **ELM CITY** cottonwood boards, wet them early and often. Cottonwood has a great ability to easily absorb water softening the wood along with making it more forgiving and durable increasing the longevity of the boards. Have fun throwing and thank you for your purchase!

Did you know each cottonwood target board can absorb several pounds of water! So make sure you wet your boards early and often.
